

Rows are input modality, columns are ontology. Boxes show the median and interquartile range across  $n = 5$  training seeds and whiskers the full range; because five points is a thin basis for quartiles, every seed is plotted on top and the points are the evidence. † marks the MLP structure-only constant-predictor control.  $F_{max}/S_{min}$  favour graph-aware Hybrid/Hybrid\_JK. Generated by `src/plot_arc_ablations.py` from `ablations/**/test_metrics.json`.
